# Your Privacy, Mathematically Guaranteed

## Military-Grade Encryption

AES-256 encryption—the same standard used by the NSA. Your messages would take billions of years to decrypt.

## Zero Knowledge

We don't store, log, or track your data. No access to messages, contacts, or metadata. Ever.

## Transparent & Auditable

Our code is open for inspection. Security through transparency, not obscurity.

## Privacy by Design

Built from the ground up with your privacy as the foundation. Cross-platform support coming soon.

## Stay Updated

Subscribe for the latest updates. We prioritize your privacy—no spam, guaranteed.
